

Case Study Template

Successful experiences on reducing emissions and improving resource efficiency

The Transforming Tourism project is collecting case studies to highlight best practices to reduce GHG emissions and increase resource efficiency in the tourism sector. By submitting your information, you will share your experience with peers and contribute to the sector's ambition to be more sustainable. Your story might be featured, with your agreement, in the Transforming Tourism project's publications, newsletter and/or website, to serve as inspiration for others.

Name of organisation	
Issue to be resolved <i>Outline what the issue was and how the issue was identified.</i>	
Action taken, resources saved & timeframe to deliver <i>Detail the actions your organisation took in order to address the issue. Include details of any initiatives or changes in processes your organisation made.</i> <i>Please detail the resources saved e.g. water, waste, energy, materials, carbon.</i> <i>Please add any quantitative savings where possible e.g. total energy and water use, corporate carbon footprint, GHG emissions/guest night, etc.</i>	
Result <i>Outline the results of the action taken.</i>	
Next Steps <i>Summarise any next steps you intend to take. For example, how you intend to maintain the momentum of the action you have taken so far or how you will monitor the success of your actions.</i>	
Any other information <i>Please detail here any further information you would like to add to be included in your case study.</i>	
Link to further information <i>If this case study is already published online, please provide a link.</i>
