

YAAM Solidarité

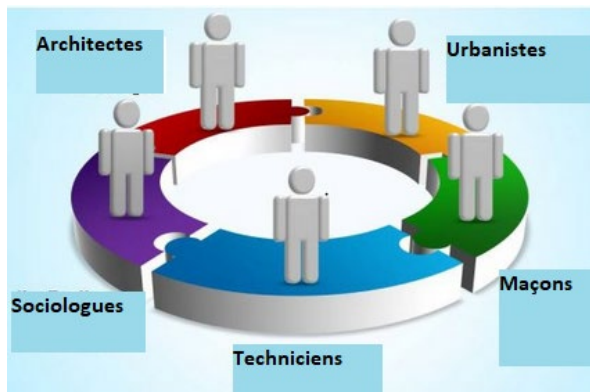

Project objectives

- ❖ **Improve the habitat and living environment of disadvantaged populations**
- ❖ **Disseminate good practices in sustainable construction**
- ❖ **Supporting community projects of residents**
- ❖ **Supporting local CSOs**

Presentation of the partners to the 2019 project

To carry out the activities of the 2019 project, YAAM Solidarité has strengthened its team by recruiting staff, and forging partnerships with local and international partners,

Multidisciplinary team

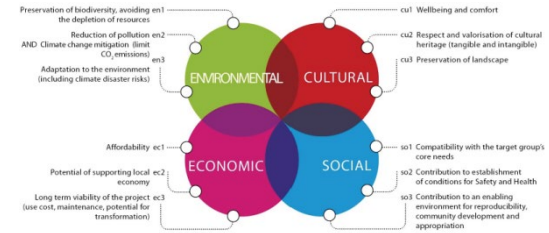

Partenars

Lines of intervention 2019

1. Develop tools and methods for managing sustainable housing projects, running a sustainable construction network:

- Fact Sahel
- SDI network

2. Intervention at the scale of the Boassa district:

- Participatory mapping of the Boassa district
- Community works (road development, public development, urban agriculture)
- Strengthening the skills of local organizations (training for women's groups)

3. Habitat-wide intervention:

- Improvement of the habitat through a system: rotating fund, self-managed by the inhabitants, technical support from YS;
- Improvement of construction techniques: training of craftsmen in the neighborhood, awareness workshop, etc.

1 Develop tools and methods for managing sustainable housing projects

- YS continued to strengthen its Fact Sahel network by organizing the Fact Sahel 2019 in Ouagadougou
- YS works in collaboration with UrbaSEN for its integration into the SDI network

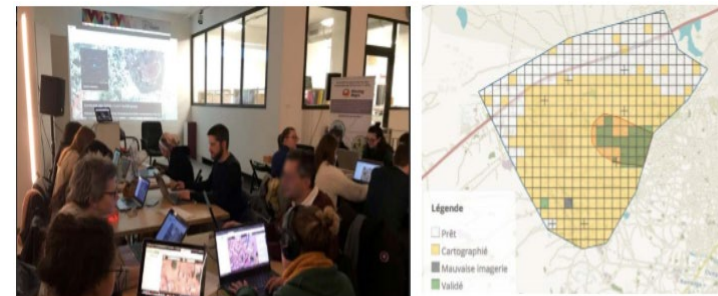

2. Neighborhood-wide intervention:

- **Participatory mapping** (risk areas, digitization of equipment, housing, roads etc.)
- **Collective actions of common interest** (preservation of public spaces, public development, rehabilitation of roads etc.)
- **Reinforcement of local skills** (training of local structures, technical support)
- **Public development** (public space housing children's play area)
- **Community equipment** (community latrine)

Participatory mapping of the district

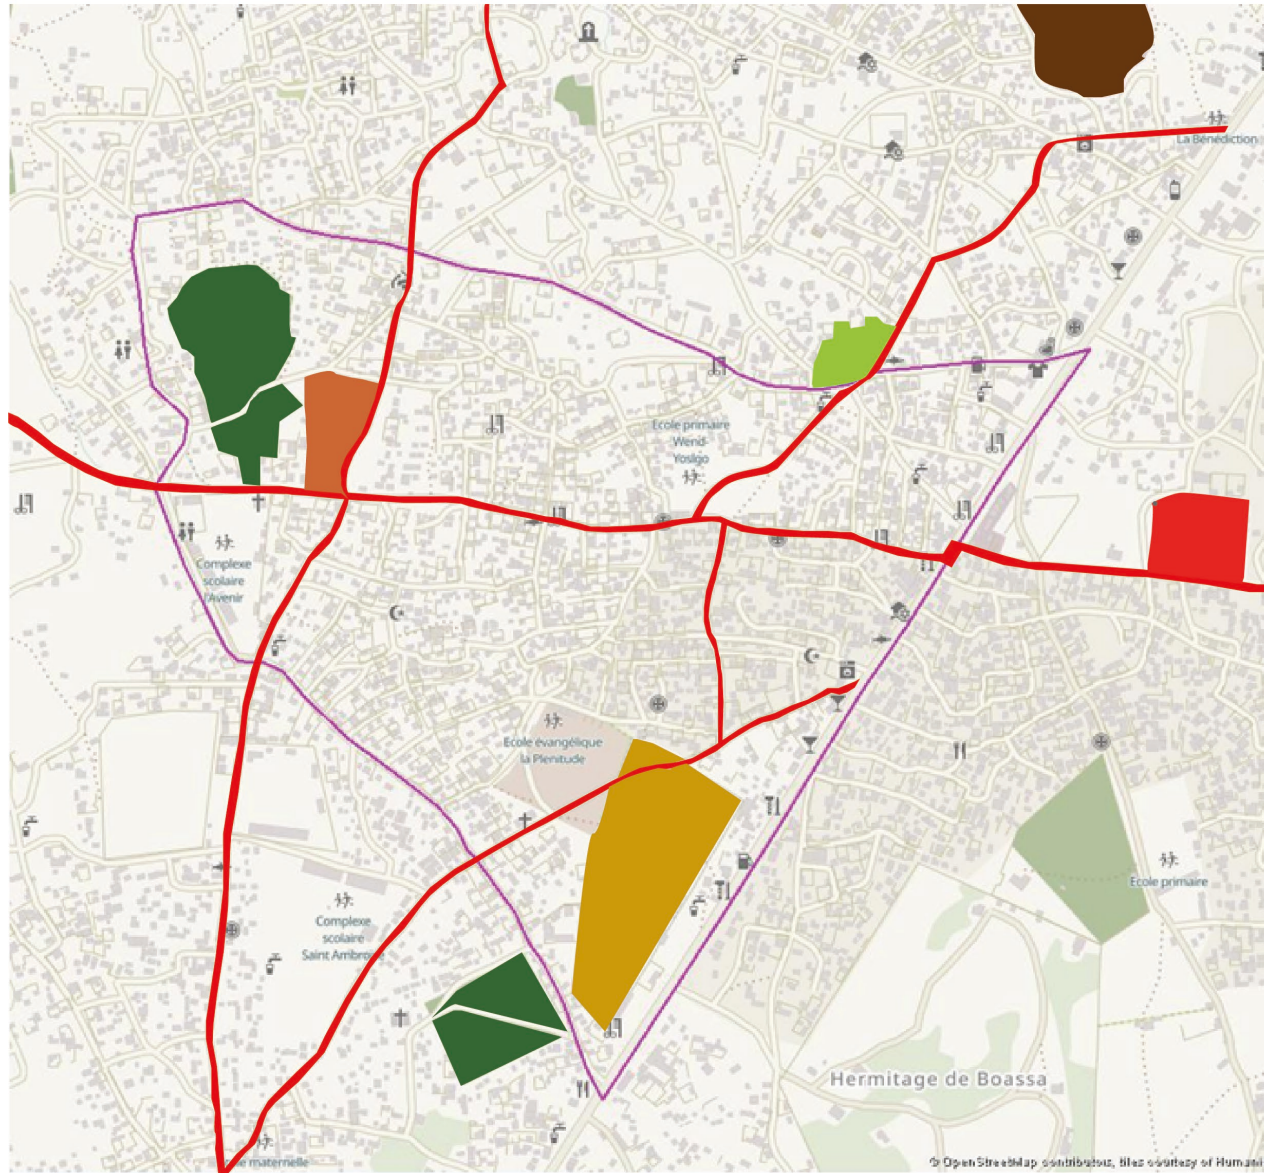

- Field trips with residents
- Local workshops on cartography
- Card workshops on tables
- Mapathons (remote scanning)

Mapathon à Paris pour YAAM ; Aperçu de l'outil utilisé pour la coordination de la cartographie de Boassa

Awareness and consultation with residents

The actions carried out are:

- **The making of a film by Boassa by young people from the neighborhood "I film my neighborhood"**
- **The realization of workshops**
- **Film screenings in the neighborhood**

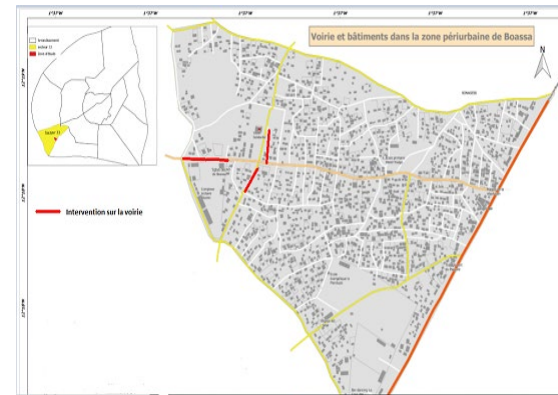

Film screening session in Boassa

Field trips for volunteers to make videos

Collective action: road improvement

Road workshop images

Community works carried out in the neighborhood

Two pieces of equipment were selected by the neighborhood committee in consultation with the residents to be made:

- **The construction of a community latrine at the market**
- **The development of a public space with playground**

Latrine built

Development of public space

Urban agriculture in Boassa

- Creation of a community orchard, with a vegetable culture managed by a group of women
- Delivery of plants to residents (the plants were obtained with the support of the Ministry of the Environment)

Verger communautaire

Remise des plants aux habitants

3. Habitat-wide intervention:

- **The rotary housing fund**

YS supports residents in improving their habitats through a funding mechanism.

- Granting of loans to beneficiaries through their group
- Technical support for the beneficiary: advice and guidance (on the work to be done, on the quotes, the choice of the craftsman) and site monitoring
- Social support for the beneficiary

Housing rehabilitated through the rotating housing fund

20 logements ont été réhabilités à traverser le fond rotatif habitat dans le quartier de Boassa

Before: Uncoated house

After: Coated house and fixing of a new door

- Improving sustainable building techniques

YAAM Solidarité, initially carried out a diagnosis on 150 homes in Boassa and then organized a training session for local craftspeople, professionals and residents based on the diagnosis,

**THANK YOU FOR YOUR
KIND ATTENTION**
