

Launch of Ecolabelling Training Programme

We are excited to be launching our UN Environment Ecolabelling Training Programme.

The ecolabelling training course covers:

- ✓ What are ecolabels?
- ✓ Why and how eco-labels contribute to environmental outcomes;
- ✓ How eco-labels are applied to product groups;
- ✓ The governance (policies & procedures) required to ensure credible certification;
- ✓ The successful market transformation through ecolabelled products; and
- ✓ The role of stakeholders including governments and civil society organizations in promoting and increasing the effectiveness of eco-labels.

Who is this programme for?

You are an ecolabelling body, a partner, buyer or policy maker of ecolabels, then this programme will help you build your knowledge in all aspects of ecolabelling and understand the environmental impacts and importance of using credible labelling. This programme is also useful for manufacturers and auditors to discover the mechanisms of ecolabels and how to ensure success.

Dates

The programme will be delivered through 8 modules over 5 days via Zoom.

Day 1 Foundation in Excellence Tuesday, 11 January 2022, 9 am – 12:30 pm CET

Day 2 Foundation in Excellence Thursday, 13 January 2022, 9 am – 12:30 pm CET

Day 3 Stakeholders & the System for Ecolabelling Tuesday, 18 January 2022, 9 am – 12:30 pm CET

Day 4 Stakeholders & the System for Ecolabelling Thursday, 20 January 2022, 9 am – 12:30 pm CET

Day 5 Ecolabelling Excellence Thursday, 27 January 2022, 9 am – 4 pm CET

(Note: Day 5 is only for individuals who own or run an ISO 14024 ecolabelling scheme.)

Please note that some preliminary preparation work before each day will be required and therefore the commitment hours are more than the contact time. Breaks will be provided in between the modules.

Registration

Please [APPLY](#) by 7 December 2021 COB

Places are limited but additional trainings will be offered in the future.
