## Context:

\* Martinique (Martinique Matinik Creole or Matnik), also known as "the island of flowers", is a French island region located in the Caribbean more precisely in the archipelago of the Lesser Antilles. Covering an area of 1128m<sup>2</sup>, it has approximately 383,911 inhabitants as of January 1, 2014.

In the 2030 horizon, according to figures from INSEE (National Institute of Statistics and Economic Studies)

The population is aging more strongly than elsewhere in France. By 2030, nearly 40% of the population in Martinique will be over 60 years old.

In this aging situation, Martinique is undoubtedly heading towards a steady increase in the rate of elderly people with reduced mobility in a situation of disability (partial / permanent).

By 2030, Martinique will also have to find a solution in the face of the growing increase of medical / paramedical equipment on the territory.

Through this approach, Humanity For The World (HFTW) anticipates by proposing a sustainable solution for recycling resources (medical / paramedical equipment) on the Martinique territory.

## Goal :

The objective of this action is plural:

- ❖ Helping disadvantaged people with disabilities living in poor countries
- ❖ Reduce global social inequalities
- ❖ Reduce inequalities with people with disabilities
- ❖ Sign up for a resource sharing process
- ❖ Preserve the natural resources of Martinique
- ❖ Participate in the recycling of resources
- ❖ Go towards an eco-citizen approach
- ❖ Enter the cycle of consumption and responsible production

## Challenges:

The challenge for **Humanity For The World (HFTW)** is to mobilize the local and global population around this project to achieve the defined goals.

**Humanity For The World (HFTW)** is committed to responding to the 12th Goal of Sustainable Development (SDG 12).

### Humanity For The World (HFTW)

**Siège social** : Résidence « Caribou Beach » Lieu-dit Anse l'Etang, quartier Tartane, 97220 Trinité. Martinique. France

**Action :**

**Humanity For The World (HFTW)** and its members will collect from the local and global population **financial and / or natures donations** to implement and sustain this project in the period 2018-2019.

**Method:**

**Financial donations:**

We will collect financial donations via our website: [www.humanityfortheworld.org](http://www.humanityfortheworld.org)\*\*

We will collect face-to-face financial donations at Humanity For The World headquarters (HFTW) either directly or by mail (Résidence Caribou Beach - Anse l'étang locality - Tartane district - 97220 - La Trinité - Martinique - France).

**Donations in kind:**

We will collect in-kind donations through our website: [www.humanityfortheworld.org](http://www.humanityfortheworld.org)\*\*

We will collect donations in kind, by forming partnerships, by reaching out to the local and / or global population.

We will collect in-kind donations through our personal and / or professional cars from individuals who will not be able to deposit them at headquarters.

**Storage :**

We will routinely solicit our members for storage of material.

We will solicit partners for mass storage.

**Expected results :**

Follow the new universal roadmap on sustainable development by 2030 taken up by the Ministry of Ecological and Solidarity Transition of the French government and defined in September 2015 by the United Nations Organization and its 193 member states:

"It's an agenda for people, for the planet, for prosperity, for peace and for partnerships. It carries a vision to transform our world by eradicating poverty and ensuring its transition to sustainable development. "

By this action Humanity For The World (HFTW) participates by acting directly in the following fields:
