procure with care

The "One Planet" network is part of the 10 year framework of programmes on sustainable consumption and production.

More than just "Green"

In 2015, the United Nations (UN) established 17 Sustainable Development Goals (SDGs) which aim to secure sustainable, peaceful, prosperous and equitable life on earth. The SDG 12 – Responsible Consumption and Production – is to ensure sustainable consumption and production patterns.

In conjunction with the SDG's, UN launched the "One Planet" network which will implement a 10-year Framework to support the global shift to sustainable consumption and production and to achieve SDG 12.

Procurement: From "Green" to Being "Sustainable"

A new ISO (20400:2017) was released in 2017. This Sustainable Procurement guidance standard provides advice on implementing sustainable procurement, in which organisations need to consider the environmental, societal and economic impacts of their decisions across the entire procurement cycle and their supply chain management. Consider the following:

為「環保」多走一步

2015年，聯合國制定了17項可持續發展目標(SDGs)，從可持續性、和平、繁榮及平等各方面保障全球的生活。而當中的「負責任的消費和生產」(SDGs第12項)，旨在確保可持續的消費和生產模式。

與此同時，聯合國成立了「同一個地球」網絡以執行「可持續消費和生產十年方案框架」，從而推動全球轉型為可持續消費和生產。

從「環保採購」到「可持續採購」

2017年，最新的可持續採購國際標準ISO 20400:2017推出，為實施可持續採購提供指引，促使企業或組織在整個採購週期及供應鏈管理中考慮環境、社會和經濟的因素，如下：
