Accelerating climate action in tourism: The Glasgow Declaration

Information Sessions

21 September 2021

The Glasgow Declaration aims to catalyse an acceleration of climate action across travel and tourism during the COVID-19 recovery and beyond. It defines a clear and consistent sector-wide message and approach to climate action in the coming decade, aligned with the wider scientific framework and urgency to act now.

In advance of the Glasgow Declaration’s official launch at COP26 this November, these two information sessions will explore the Declaration’s background, its purpose and the pathways proposed to accelerate tourism’s ability to transform and achieve Net Zero.
