A paradigm shift from industrial agriculture to diversified agroecological systems
A different paradigm: diversified agroecological systems

- Economic
- Environmental
- Health
- Social
- Cultural
Different pathways, common goal

Diversified Agroecological Farming

Connect to Markets  Relocalize
Diversify             Diversify
Mechanize            Reduce chemical inputs
Build knowledge      Build knowledge

Subsistence Agriculture

Industrial Agriculture

Global Conference 10YFP Sustainable Food Systems Programme. Pretoria, 23 June 2017
